Dear permanent members  
of the United Nations' Security Council,

it is with great worry that we watch the amplified efforts of our government, the government of the Federal Republic of Germany, to attain support for the effort to achieve a permanent seat in the Security Council of the United Nations.

The UN Security Council unites the most important victors over Germany, and this should never be changed. A permanent seat for Germany in the security council would turn this over to the opposite and pave the way for a repetition of the events of the last century, a repetition that is to be prevented by the formation of the United Nations.

Therefore we ask you to not grant the Federal Republic of Germany any permanent seat in the Security Council of the United Nations and to reject any requests regarding this.

Yours respectfully

Workers' League for the Restoration  
of the Communist Party of Germany
